NEW AND IMPROVED CLOSET PANS.

STEPHEN GREEN AND CO.

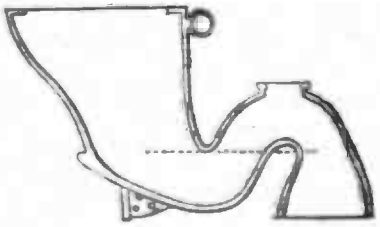
IMPERIAL POTTERIES, LAMBETH.

These Pans will be found to combine all the latest improvements, with the advantage of having a larger water surface than any other kind of trapped Pan, by which arrangement the sides are kept perfectly clean. The trap is not larger than usual, and has its smallest diameter at the bottom of the Pan, increasing to the end, so that anything passing the neck cannot possibly stop or clog the drain.

Manufactured in superior double-glazed Stoneware, white and smooth inside, at the SAME PRICE AS THE COMMON PAN.

If with Patent Valve, 1s. 6d. extra.

MANUFACTURERS OF THE PATENT SYPHON FLUSHING-BASIN, AND IMPRC. ed DRAIN PIPES.



JENNINGS'S INDIA-RUBBER TUBE CLOSET,

FITTED WITH MR. UNDERHAY'S PATENT WATER REGULATOR.

This Regulator in shape is like a small drum, but having solid ends, with India-rubber sides. It is fixed to the box A. The lifting of the closet-handle raises the top of the Regulator, and inflates it (like raising the top of an accordian). Although the closet-handle be immediately dropped, the supply to the Basin is the same, as the service-cock is kept open till the air has been exhausted from the Regulator by the pressure of a weight in connection with the closet handle, and the desired quantity of water is regulated by the escape of air.

GEORGE JENNINGS having taken a license from the patentee to use this Regulator, is now enabled to dispense with the feed-cistern and ball-cock, making the India-rubber Tube Closet still more simple, and as easy to understand and fix as a cock to a sink, SAVING FULLY FIFTY PER CENT. IN PLUMBERS' WORK.

MANY THOUSANDS of Jennings's India-rubber Tube Closets ARE IN USE, and giving the greatest satisfaction. Upwards of FORTY of these Closets were fixed under the Transept of the Exhibition Building; they never required repair or attention; they gained the Prize Medal, and a testimonial from Messrs. Fox, Henderson, and Co.

JENNINGS'S EARTHENWARE WATER-CLOSET.

This Closet has been most favourably received, and in blue or white ware, fitted with one of Jennings's Self-closing Stool-cocks, with sunk plate and ivory handle, looks equal to the best Valve or Pan Closet, and is more efficient.

The Water-closet and Trap being complete in one piece of earthenware, the usual expensive Lead Trap is saved.

This Closet is imperishable, and, being free from all machinery, it is noiseless.

The following prices bring them within the reach of all classes:—

In Brown Stone Ware, enamelled white inside	15s. each.
In White Stone Ware	18s. "
Blue Printed Rich Pattern	21s. "
Richly Enamelled, with Gilt Scroll Ornaments	25s. to 30s. "

JENNINGS'S SELF-CLOSING STOOL-COCKS,

For supplying the same with Plain Flat Plate and Handle	12s. each.
With Sunk Plate and Ivory Handle	15s. "
With extra large Sunk Plate, and large Ivory Handle	18s. "

By adapting Mr. Underhay's Regulator, and using a double-seated Valve, George Jennings is enabled to offer to the notice of Architects one of the most simple Self-acting Water-closets ever produced. It is free from all complication, and only requires to be seen to be approved.

The City Militia Barracks have just been fitted with these Self-acting Closets. They waste no water, yet give the required supply, and are free from all noise.

G. J. is now preparing ONE HUNDRED OF THESE CLOSETS, for the New Westminster Workhouse, and two other public Buildings.

JENNINGS'S INDIA-RUBBER TUBE, BIB, BALL, OR STOP COCKS,

For all purposes, will be found more simple and more durable than any other.

JENNINGS'S NEW BELL TRAP

Is well worthy the attention of Architects; it is not liable (like the old Bell Trap) to become stopped, and when the grating is removed it still remains a trap.

The foregoing articles can be had through any plumber, or from Messrs. C. BOTTEN and SON, Brass Founders and Engineers, of Crawford-passage, Clerkenwell, who are licensed to manufacture and sell all Jennings's inventions; or from the Inventor and Patentee,

GEORGE JENNINGS, ENGINEER AND GENERAL BRASS-FOUNDER,

29, GREAT CHARLOTTE-STREET, BLACKFRIARS-ROAD, LONDON.

BEETSON'S PATENT VALVE-CLOSET.—

JOHN WARNER and SONS,
Crescent, Jewin-street, London.
Sole Manufacturers.

VALVE-CLOSETS are the best in principle, and the most cleanly and inodorous in action.

This Patent Closet combines the great desiderata, cheapness and durability, and the following advantages:—

The Valve is protected from wear and injury by India-rubber, and cisterns, valves, cranks and wires, are not required, and any number can be fixed to one supply.

A great variety, and large Stock of PANS, HOPPERS, SELF-ACTING, and SHIP CLOSETS, &c. always on hand.

GREAT REDUCTION in PRICES.

GLAZED STONEWARE DRAIN PIPES.

DAVID MOUNTAGUE (late Turner and Mountague), Lambeth Pottery, Vauxhall-road, Kent, now offer to the public Glazed Stone Ware Drain Pipes of the best quality at the following reduced prices:—

Straight Tubes with Socket Junction, in 2-foot lengths.

1 in.	2 in.	4 in.	6 in.	9 in.	12 in.	15 in.	18 in.
2d.	3½d.	6d.	8d.	1s.	1s. 6d.	2s. 3d.	3s. 6d. per foot

Closed gulls in each; Traps 2s.; Bends, Junctions, Pitchers, Jars, Bottles, Chemicals, &c. &c. at reduced prices in proportion. A discount on the above prices dependent on quantity and mode of payment. Orders received and executed from the Wharf, Lambeth Wharf, St. Saviours, Blackfriars, Harrow-bridge Wharf, Bermondsey, Essex; and at his Lambeth Works, Gunnersbury, Middlesex.

IMPORTANT TO GENTLEMEN CONNECTED WITH SANITARY MEASURES,

ARCHITECTS, BUILDERS, PLUMBERS, AND OTHERS.

JENNINGS'S CLOSET WITH UNDERHAY'S PATENT REGULATOR.

F. G. UNDERHAY'S PATENT APPARATUS, or REGULATOR, attached to all kinds of Closets, entirely dispensing with the use of CISTERNS, Service Boxes, Cranks, Wires, &c. making a Closet as simple as Sx as a Bit Cock, and insuring ANY REQUIRED FLUSH OF WATER, which may be by it regulated at pleasure, under all variations of pressure: an object never before obtained without the complicated arrangement of Service Boxes and Cranks.

CHARLES BOTTEN and SON, in drawing the attention of the Trade to the above invention, of which they are the Manufacturers, claim it to be advantageous by sufficient stress on the great superiority in SIMPLICITY, CHEAPNESS, and DURABILITY, of this over all other modes of fixing Closets of all kinds. They have several fixed for inspection at their Factory, and submit a call from all parties interested.

C. B. and SON are prepared to supply JENNINGS'S INDIA RUBBER TUBE CLOSETS for which they are licensed Manufacturers, GREATLY IMPROVED, SIMPLIFIED, and REDUCED in COST, by the addition of the Patent Regulator, DISPENSING with the FEED-CISTERN and all its appendages, and obtaining an UNCHECKED flush of water from the cistern or main.

They would also draw attention to UNDERHAY'S HIGH-PRESSURE CAM VALVES, which have given great satisfaction for some years, as the increasing demand for them abundantly testifies. They are fair, very simple, and applied to all the purposes of ordinary Plug Taps.

Testimonials have been received from many eminent firms; among others the following:—

"London Works, near Stourbridge.

"Dear Sir,—We have used many of your Patent Bell Valves, and find that they answer their purpose very well, and are very certain in their action.—We are, yours obediently,

"FOX, HENDERSON, and Co."

Messrs. Fox, Henderson, and Co. fixed a 2-inch one at the Great Exhibition, to supply the water to the Building, which gave great satisfaction.

CHARLES BOTTEN AND SON,

ENGINEERS, BRASS FOUNDERS, GAS METER AND FITTING MANUFACTURERS.

Crawford Passage, Bagnigge-wells, Clerkenwell, London.

MANUFACTURERS of GLAZED STONEWARE PIPES, Bends, Junctions, &c., also FIRE BRICKS, Vitrified Blue Bricks as used by her Majesty's Commissioners of Sewers, White Fire Clay, Fusing Bricks, &c. &c. Agents,—CHARLES RICHARDSON, No. 6, South Wharf, Paddington, London.
